Draft Options for Closing the Gap on Forestry Management Measures--123014AH_ac-kp.docx

Christine--

FYI--Attached are the preliminary comments I've received from NMFS. Since other staff that have been working with us on CZARA were out of the office, Kim asked Ken Phippen to review. Ken have been involved with coho recovery but coming into CZARA cold.

Ex. 5 - Deliberative

I left a vm with Kim to try to discuss with him further this morning. Will let you know if we're able to connect and how that convo goes.

Allison

Allison,

Ex. 6 - Personal Privacy I asked knowledgeable staff to quickly review your document. I'm forwarding their draft comments. I have not had a chance to review, edit, approve. However you have a short window so I offer our very cursory thoughts based on our long history on these issues. We are happy to discuss if you have time.

Thanks for the opportunity to comment.

Kim

Realizing you had limited ability to interact, I offer the best we could on reviewing the document

and understanding how we could help at this stage.

Thanks,

Ken

Kim et. al.--

Apologies for the very quick turn around but I'm hoping you and your staff would be able to quickly review the attached draft document that lays out potential options OR could take to meet the CZARA additional management measures for forestry and help with coho recovery as well **by COB today**.

Ex. 5 - Deliberative

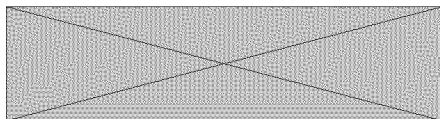

Christine Psyk (EPA) pulled together the attached draft. Alan Henning has proving some revisions (red text and strike out) to ensure this summary is consistent with statements in our decision doc which NMFS has already reviewed. I've also begun to provide some additional comments and edits in track changes (through the riparian section) but given the quick turn around, didn't want to wait any longer before sending along to you.

If you can't review by COB today, comments first thing tomorrow are also welcome. We've committed to providing Will/Dennis with something by 10 am PST. However, given the quick turn around right after the holiday vacations, I also understand if you aren't able to provide feedback by that time. In which case, we'll just send on as a "preliminary" document with a note that we are still working with NMFS to finalize.

Thanks in advance for the review and again apologies for the quick turn around.

Allison
